Iron is an essential trace mineral and an important component of hemoglobin, the protein in red blood cells that assists in the transportation of oxygen throughout the body. Low iron levels may lead to feelings of fatigue.[†]

Nature's Lab Perfect Iron helps regulate iron levels to support healthy energy levels and red blood cell health.[†] This formula utilizes iron as bisglycinate chelate, a form of iron that is gentle on the stomach and more bioavailable than other types of iron.[†]

Warning: Pregnant or lactating women and people with known medical conditions and/or taking drugs should consult with a qualified healthcare practitioner prior to taking dietary supplements.

Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. **KEEP THIS PRODUCT OUT OF REACH OF CHILDREN.** In case of accidental overdose, call a doctor or poison control center immediately.
