NATURAL BABY GUM & TOOTH WIPES

JACK N' JILL since 1949 NATURAL COTTON WIPES

Did you know that you can start cleaning and caring for your baby's gums well before their first tooth appears?

Clean and healthy gums will help make sure that when their teeth do come through, they will be strong and healthy.

REMOVE WIPE FROM SACHET. WRAP AROUND FINGER.

GENTLY CLEAN BABY'S GUMS, LITTLE TEETH & INSIDE OF MOUTH.

- ✔ Ideal for applying Jack N' Jill Natural Baby Teething Gel
- ✔ Individually wrapped to ensure optimum hygiene and ease of use.
- ✔ Perfect for on the go. Pop in your bag or pram.
- ✔ Unflavored, but with a pleasant taste thanks to xylitol, our wipes are free from Fluoride and sugar.
- ✔ Xylitol helps balance the pH in the mouth and has been shown to reduce bacteria trapped in plaque.

DIRECTIONS: Wash your hands! After each feeding time: wrap one wipe around your finger and use around all surfaces of the gums, teeth, tongue and cheeks. Use immediately after opening sachet and dispose of wipe after one use. As your baby develops teeth, introduce the Jack N' Jill Silicone Finger Brush, followed by the Jack N' Jill Silicone Toothbrush and Jack N' Jill Natural Certified Toothpaste.

CAUTION: Keep out of reach of small children. Do not use if sachet is perforated or damaged. Jack N' Jill Wipes are designed to be used by adults on babies/small children. Choking hazard. Do not let children use unattended. Discontinue use if allergic or sensitive to any ingredient. Avoid eye contact. If eye contact occurs, wash thoroughly with water. Do not flush. Store at room temperature.

INGREDIENTS: Purified Water, Xylitol
